Professional Profile

Motivated Computer Science fresher with a strong foundation in full-stack development and cloud technologies. Passionate about building scalable web applications and leveraging cloud infrastructure to solve real-world problems. Proven ability to design and implement end-to-end solutions with hands-on experience in modern tech stacks.

Education

B.Tech in Computer Science

Allenhouse Institute of Technology

Expected: 2029

GPA: 8.0/10.0

Relevant Coursework: Data Structures, Web Development, Database Management

Technical Skills

Programming Languages: Python, C++

Frontend Development: HTML, CSS, JavaScript, React

Backend & Databases: Node.js, Express.js, MongoDB, Socket.IO

Tools & Technologies: Git, Linux, Cloud Technologies (AWS/GCP foundations)

Additional Skills: JWT Authentication, RESTful APIs, Real-time Communication, Geolocation APIs

Projects

FoodRescue - Full-Stack Web Application

[Live Demo](#) • [GitHub](#)

Designed and developed an end-to-end full-stack platform connecting food donors, volunteers, and NGOs to minimize food waste and combat local hunger. Implemented role-based workflows with customized dashboards, real-time mapping with Leaflet integration, and dual-tier OTP authentication system for secure chain-of-custody verification. Developed real-time tracking capabilities using WebSockets and built an ESG impact engine calculating environmental metrics and carbon emissions saved.

Tech Stack: React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.IO, Leaflet, JWT, Netlify, Render

Core Competencies

- Problem-solving and logical thinking with strong DSA foundations
- Team collaboration and communication in development environments
- Quick learner with ability to adapt to new technologies and frameworks
- Full-stack development mindset with focus on user-centric design
- Version control and collaborative coding best practices

Achievements & Certifications

- **CodeFuse Hackathon** – Finalist (2024)
- **30-Day DSA Challenge** – Successfully Completed
- **Hackathon 1.0** – Participant with Problem-Solving Focus

Current Focus

Actively seeking internship opportunities in Full-Stack Development, Cloud Engineering, and Web Application Development. Enthusiastic about contributing to real-world projects and expanding expertise in scalable cloud-based solutions.
